

Incident report | Student template

Name / team: _____

1. Claim

Which account is most strongly connected to the unauthorized transfer? _____

2. Evidence timeline

Complete at least six rows: full UTC timestamp | filename and line number | identifiers | observed action | significance.

Row 1: _____

Row 2: _____

Row 3: _____

Row 4: _____

Row 5: _____

Row 6: _____

3. Correlation

Explain how session, asset ID, transfer ID, size and hash connect records. Which are stronger than timing alone?

4. Alternatives

Explain why at least two suspicious-looking activities have legitimate explanations. _____

5. Limits

What can you conclude about account activity? What cannot these logs prove about the human operator, intent, or later publication? _____

6. Response

Recommend one immediate containment action, one evidence-preservation action, and one prevention improvement. Explain the purpose of each. _____

7. Follow-up

Name two additional evidence sources you would request. _____
